DEFINITION OF OWN MUSIC:HM, good laff (earlier "Rushy style")

RECORDED MATERIAL:Single coming out-"Bad Acid/Heaven don't belong to

BEST GIGS:Derby Hall(with Geddes Axe), St. Dominic's.

HOBBIES:Farting profusely, world domination, picking their noses.

VERY VERY INTENSE DISLIKES:"Rock Life" magazine.

FUTURE PLANS:World tour of Bolton, using 100,000watt PA at Aquarius.

OTHER COMMENTS:Might be playing Deeply Vale, they've played about seventeen gigs, they like Jamm Studios and they're all off down to Donnington(to watch, not to play).

MEDUSA have a particular gripe about Bolton's glossy magazine, "Rock Life". It seems that, after being promised £30 expenses for playing a gig organised by "Rock Life", they only received a tenner. Furthermore, "Rock Life" told Medusa they had a gig for them in Wigan but when they arrived they found another group doing it.
