## ATTENTION!

No this is not the "Town Hall Steps" equivalent to page three of the Sun, this is something more serious. A couple of months ago, Shockwave played the Riverside Club in Wigan - at some point in the evening Ted Twigg's bass (pictured above) was nicked. The articles in question were a black Fender Jazz bass with a rosewood neck and wide frets, serial number 5843687, a Rook aluminium flight case and a Korg GT-7 tuner (customised). If you are offered anything along the lines of these or if you have any information whatsoever, however small, then either get in touch with Wigan CID or ring Ted at work on 061-764-1216 (between 7am and 2pm). Incidentally, Ted would like to thank Harker & Howarths for the loaning of his new bass.
