

COLOURS OF CRIMSON

STEVE
MACKANE

Formed in late November 1982, Colours of Crimson played their debut gig at the Aquarius on March 9th to a capacity crowd and have since played Blackrod Labour Club twice, Westhoughton Sports Centre with Peppermint Dream, The Adorables and Rhythm Exchange, The Gaiety and The Ram's Head in Radcliffe. They have recorded eleven tracks at Soundlab Studios and are considering releasing six tracks on a cassette. Other plans include the recording of a video with the intention of sending it to record companies. There is also talk of releasing a single/EP with Peppermint Dream. The band write all their own material which includes a wide variety of styles which are hard to label. They are a very visual band who consider the visual aspect almost as important as their music.
