

well with the band with some fine riffs and solo work, while Bob's vocals are very mature and commanding. Highlights I think, were "Yesterday's Girl", "Get Out", "Shape of Things To Come" and "Shotgun" featuring a drum solo showing why Paul Anderson has earned the name of "Octopus". As with many local bands at this stage, work is still needed on their material, in this case perhaps adding a couple of slightly slower numbers without the fuzz. But on the whole, Kyte now show a great deal of promise (the landlord rated them higher than established local bands Shockwave and Wolfpack who have played there) and I look forward to watching them again.

The *Swan Hotel*

As promised in the last issue, the programme of improvements in the cellar disco have continued. The disco now has two more banks of spotlights and a strobelight. Coupled with the painting of the previously drab disco stand, this means a large improvement in presentation. Unfortunately for the time being at least, it has been decided not to extend these plans to other parts of the cellar until the moron element of the customers have been stopped from vandalising the place. The 10 pence price rise on all discos is a direct result of some of these feeble minded idiots ripping out a sink in the toilets.

The Swan discos are:-

WED NIGHT (8.00 - 10.30)	HIPPY/60s DISCO
THU NIGHT (8.00 - 10.30)	ROCK
FRI NIGHT (8.00 - 11.00)	ROCK
SAT LUNCH (12.00 - 3.00)	ROCK
SAT NIGHT (8.00 - 11.00)	ROCK
SUN NIGHT (8.00 - 10.30)	ROCK
